**₱3,600**

**₱600**

- Registration at the IOM clinic at the time of the scheduled appointment.
- Female applicants suspected to be pregnant may be subjected to undergo a pregnancy urine testing.
- A Chest X-ray is done at the IOM clinic.
- If TB is suspected, further investigation might be required (Sputum Smear and Culture Test).
- A certificate is issued at the screening clinic same day if chest X-ray findings do not warrant further investigation.

- Registration at the IOM clinic at the time of the scheduled appointment.
- Clinical assessment of TB signs and symptoms by History and physical examination is done by the Panel Physician.
- If indicated, further evaluation might be needed as for the applicants who are over 11 years old.
- A certificate is issued at the screening clinic same day if medical assessment do not warrant further TB investigation.

*\*extra fees may apply*

**Important Reminders**

- ! For pregnant women, testing for TB is required. Thus, a pregnant lady can choose to undergo one of the following:
  - A chest X-ray with Lead double shielding to protect her and her unborn child from radiation (the Pregnant lady will have to sign a Pregnancy Declaration)
  - A sputum test: for which the applicant will be requested to give 3 sputum samples on 3 consecutive days, the samples will then be tested for TB smears and cultures at no extra fees
  - Chest Xray will be deferred until the pregnant applicant gives birth. Applicant can come back to IOM for the Chest Xray after the birth.

- ! An appointment has to be scheduled prior to your arrival at the IOM Manila Health Centre. Payments are made at the IOM office by cash basis only during the registration and prior to the medical examination. No need for advanced payment.

**Important Notes**

- 1 If at least one family member is referred for sputum tests, family contact tracing might be necessary.
- 2 If chest X-ray is abnormal, presenting changes suggestive of an active or inactive TB process or if there are other clinical reasons to suspect TB disease, counselling will be done with instructions on further TB investigation. The certificate will be put on HOLD until receiving the final TB investigations result.
- 3 No fasting is required.
